There will be quite a distance between some of the studios. It would be advisable that you have some sort of alternative mapping system with you — either a Thomas Guide or print maps from an online program, such as: Mapquest or Google Maps. You may begin at any house you choose. Look for the balloons.

We truly believe that all of the driving will be well worth your efforts. For those of you that visit each studio and get your tickets stamped, you will be eligible to win a nice gift basket with quilting and sewing supplies.
